Author Index—Volume 144 (2003)

Bulitko, V. and D.C. Wilkins
Qualitative simulation of temporal concurrent processes using Time Interval Petri Nets 95–124
Chen, L. and N. Tokuda
Robustness of regional matching scheme over global matching scheme (Research Note) 213–232
Eiter, T., W. Faber, N. Leone, G. Pfeifer and A. Polleres
A logic programming approach to knowledge-state planning, II: The DLV$^{\mathcal{K}}$ system 157–211
Faber, W., see Eiter, T. 157–211
Gobet, F., see Lane, P.C.R. 251–263
Hirayama, K., see Walsh, W.E. 125–156
Janhunen, T.
Evaluating the effect of semi-normality on the expressiveness of defaults (Research Note) 233–250
Lane, P.C.R. and F. Gobet
Developing reproducible and comprehensible computational models (Research Note) 251–263
Leone, N., see Eiter, T. 157–211
Levesque, H.J., see Scherl, R.B. 1– 39
Osman, L.M., see Reiter, E. 41– 58
Pfeifer, G., see Eiter, T. 157–211
Plaisted, D.A. and A. Yahya
A relevance restriction strategy for automated deduction 59– 93
Polleres, A., see Eiter, T. 157–211
Reiter, E., R. Robertson and L.M. Osman
Lessons from a failure: Generating tailored smoking cessation letters 41– 58
Robertson, R., see Reiter, E. 41– 58
Scherl, R.B. and H.J. Levesque
Knowledge, action, and the frame problem 1– 39
Tokuda, N., see Chen, L. 213–232
Walsh, W.E., M. Yokoo, K. Hirayama and M.P. Wellman
On market-inspired approaches to propositional satisfiability 125–156

0004-3702/2003 Published by Elsevier Science B.V.
doi:10.1016/S0004-3702(03)00032-8

Wellman, M.P., see Walsh, W.E. 125–156
Wilkins, D.C., see Bulitko, V. 95–124
Yahya, A., see Plaisted, D.A. 59– 93
Yokoo, M., see Walsh, W.E. 125–156
